

THE INSTITUTE FOR HEALTH POLICY

The Institute for Health Policy (IHP) is a centre of excellence in health policy research, working both in Sri Lanka and internationally. We provide a creative and challenging professional environment with opportunities for advancement for individuals interested in research that makes a difference. In Sri Lanka, we work closely with the Ministry of Health, other ministries, and development partners. Internationally, we work with health ministries, international agencies such as WHO, World Bank and ADB, and leading universities such as Harvard University. Our work spans health systems, health economics, social protection, and equity, and in the past year much of our work has focused on the national and global challenge of COVID-19. We are looking for motivated and talented individuals with an interest in our core areas of work with strong qualitative and/or strong analytical skills.

INTERNS

(Ref: IHP/HR/2106)

Should be in the 3rd or 4th year of an undergraduate degree studying statistics or a related field. Should be interested in health policy-related research, be able to use Microsoft Office products, and have a keen interest to learn and use software such as Stata and Endnote. The Candidate should be computer literate, have good communication skills and be fluent in English.

The ability to take initiative and complete tasks with enthusiasm is a must. Interns are expected to be involved in (but not limited to) data collection activities (often desk-based), data analysis and report production. You will also be required to support office staff for workshops and meetings (online and physical) when required.

Internships will be a minimum duration of 2 months. The job will be mostly working from home, but may require occasional visits to the office.

Interested applicants should email their CVs with a cover letter to jobs@ihp.lk explaining details of further studies and future goals.
